University Laboratory Theater for Inclusion

«A citizen is not someone who lives in society, but someone who transforms it»
Augusto Boal

The Theater for Inclusion Workshop is based on Augusto Boal's Theater of the Oppressed approach.

This theater practice does not use traditional scripts but focuses on participants' lived experiences, aiming to stimulate social change and develop critical awareness on selected topics.

Through theater, students and university community members will have the opportunity to reflect critically on society and to develop concrete strategies to address various social challenges.
